

Lt. Governor of Education and Marketing Report April 10th, 2010

Educational achievements are in GOOD shape. CCs have jumped and are now 15% ahead of last year and ACs are now 12 OVER goal. With 12 weeks left, we need 81 more CCs, so we need to average 7 CCs per week. Approximately 150 members stated on the AG reports that they would earn a CC by the end of the year, but haven't yet.

The spring conference committee is active and things are rolling along very well. Three of the six planned summer TLIs now have locations and I'm working on the rest.

Ben and I are laying out plans for next year and making good progress.

The three-month evaluations for the long-term results of the *Perfect Meetings* workshop at the TLIs are now coming in. Over half the respondees say their meetings are running better because of it AND that they themselves advised members to do things differently because of it. I will be requesting the rest of the attendees (about 360 more) to report on their successes before the conference.

Respectfully Submitted,

Bil Lewis, DTM
